(i) Avoidance of hypoxia - PO2 should be maintained normal oxygen saturation.
(ii) Avoidance of hypercarbia - hypercapnia is likely to cause increased ICP.
(iii) Avoidance of hypoventilation - CO2 retention leads to increased ICP.
(iv) Avoidance of hypovolaemia - fluid and intra-arterial pressure should not be maintained above 60mmHg.
(v) Avoidance of intracranial hypertension - intracranial hypertension occurs if ICP exceeds 20mmHg.
(vi) Avoidance of raised ICP - hyperventilation should be avoided.
(vii) Avoidance of raised ICP - hyperventilation should be avoided.
(viii) Avoidance of raised ICP - hyperventilation should be avoided.
(ix) Avoidance of raised ICP - hyperventilation should be avoided.
(x) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
(xi) Avoidance of raised ICP - hyperventilation should be avoided.
(xii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiii) Avoidance of raised ICP - hyperventilation should be avoided.
(xiv) Avoidance of raised ICP - hyperventilation should be avoided.
(xv) Avoidance of raised ICP - hyperventilation should be avoided.
(xvi) Avoidance of raised ICP - hyperventilation should be avoided.
(xvii) Avoidance of raised ICP - hyperventilation should be avoided.
(xviii) Avoidance of raised ICP - hyperventilation should be avoided.
(xix) Avoidance of raised ICP - hyperventilation should be avoided.
(xx) Avoidance of raised ICP - hyperventilation should be avoided.
